

Press Release – 4<sup>th</sup> May 2011

## Renault LCV range is No. 1 Bestseller in April

Renault, Europe's best selling van range, hit the number one best selling spot here in April with 14.9% of the overall market, and featured on the podium in 14 counties, including number one in Cork, Kerry, Westmeath and Cavan.

Eric Basset, managing director, Renault Ireland:

"Our award winning LCVs have been selling very well and we are delighted with the positive reaction to our van packages which includes our 5 years unlimited mileage warranty and pioneering *scrap my van* options.

With prices starting from just €8,990 with a 5 year unlimited mileage warranty across the range you can see why we are performing well each month.

We are, with our dealer network, determined to offer more affordable LCVs with a great level of service to the Irish customer. We have three versions of the Kangoo, the new Trafic with its increased performance 2.0 dCi engine and the all new design Master which comes in either front or rear wheel drive specifications and has one of the lowest running cost in its segment.

Our van scrappage scheme gives owners the opportunity to purchase a new Renault van from just €8,990\* and also avail of the **5 years unlimited mileage warranty as standard**, a major plus for all van owners".

Renault's '*scrap my van*' offer applies to light commercial vehicles aged 5 years and older, registered on the 28<sup>th</sup> February 2006 or before.
