

Press Release - 5 October 2011

### **-Renault is Number One for September Sales**

Renault was the top selling car marque in Ireland last month, achieving 13.6% market share with Mégane the best selling Renault passenger car in September.

Renault's Managing Director Eric Basset is delighted with the September figures.

"We are very happy to be number one in September and for the Mégane to be the number one best selling car. Our LCV range is continuing to do very well with almost 20% market share, mainly down to the 5 years unlimited mileage warranty available on our vans range and the availability of motor finance through Renault Finance".

In the combined passenger and LCV market, Renault is number one with a volume of 515 sold in Ireland last month.
