

# NEW RENAULT MASTER

**DRIVE THE CHANGE**

# FOR 111 YEARS, WE HAVE ALWAYS COMMUNICATED THE VIEW THAT FOR A VEHICLE TO BE IN TUNE WITH THE TIMES, IT HAS TO BE INNOVATIVE, MAKE A RESPONSIBLE COMMITMENT, AND INSPIRE PASSION WHILE OFFERING SUSTAINABLE MOBILITY FOR ALL.

Our relationship with drivers and their passengers is founded on one simple idea: for a car to be popular, it has to be practical, reliable and suited to the lifestyle and expectations of each individual. This is why Renault offers **general models, - cars for living -, accessible for everyone.** From the first standardised models in the beginning of the 20th century, to the upcoming launch of the first range of electric vehicles, **our aim has always been to make the motor car and mobility available to as many people as possible.**

Today, we are convinced **that another world is possible;** a world where the automobile is no longer a threat to the environment but instead combines **mobility, safety and quality - for everyone.**

We assert this vision every day, never losing sight of the fact **that passion for motoring is,** and will always be, what drives us forward.

We want to bring new meaning to the automobile, so that it can take a different, more appropriate position with regard to social issues and so that it will always remain a sign of progress for Mankind. **Starting next year there will be a groundbreaking range of electric vehicles, including a small van. They will be affordable to run - you will be able to drive up to 160 km using a battery that costs typically 2€ to charge (night time rate).**

The Renault vehicles for today and for the future are the founding stones of our **ambition to offer sustainable mobility to all.**

RENAULT. DRIVE THE CHANGE.

**MILEAGE**  
**WARRANTY**

For your peace of mind, all RENAULT commercial vehicles are covered by a comprehensive warranty for 5 years without any mileage limitation.

## AN EXPRESSIVE DESIGN.

With its strong and dynamic front end, the New Master embodies efficiency. With its large headlights, a new grille and a wide bumper maximizing the bodywork protection, the New Master is modernity personified.

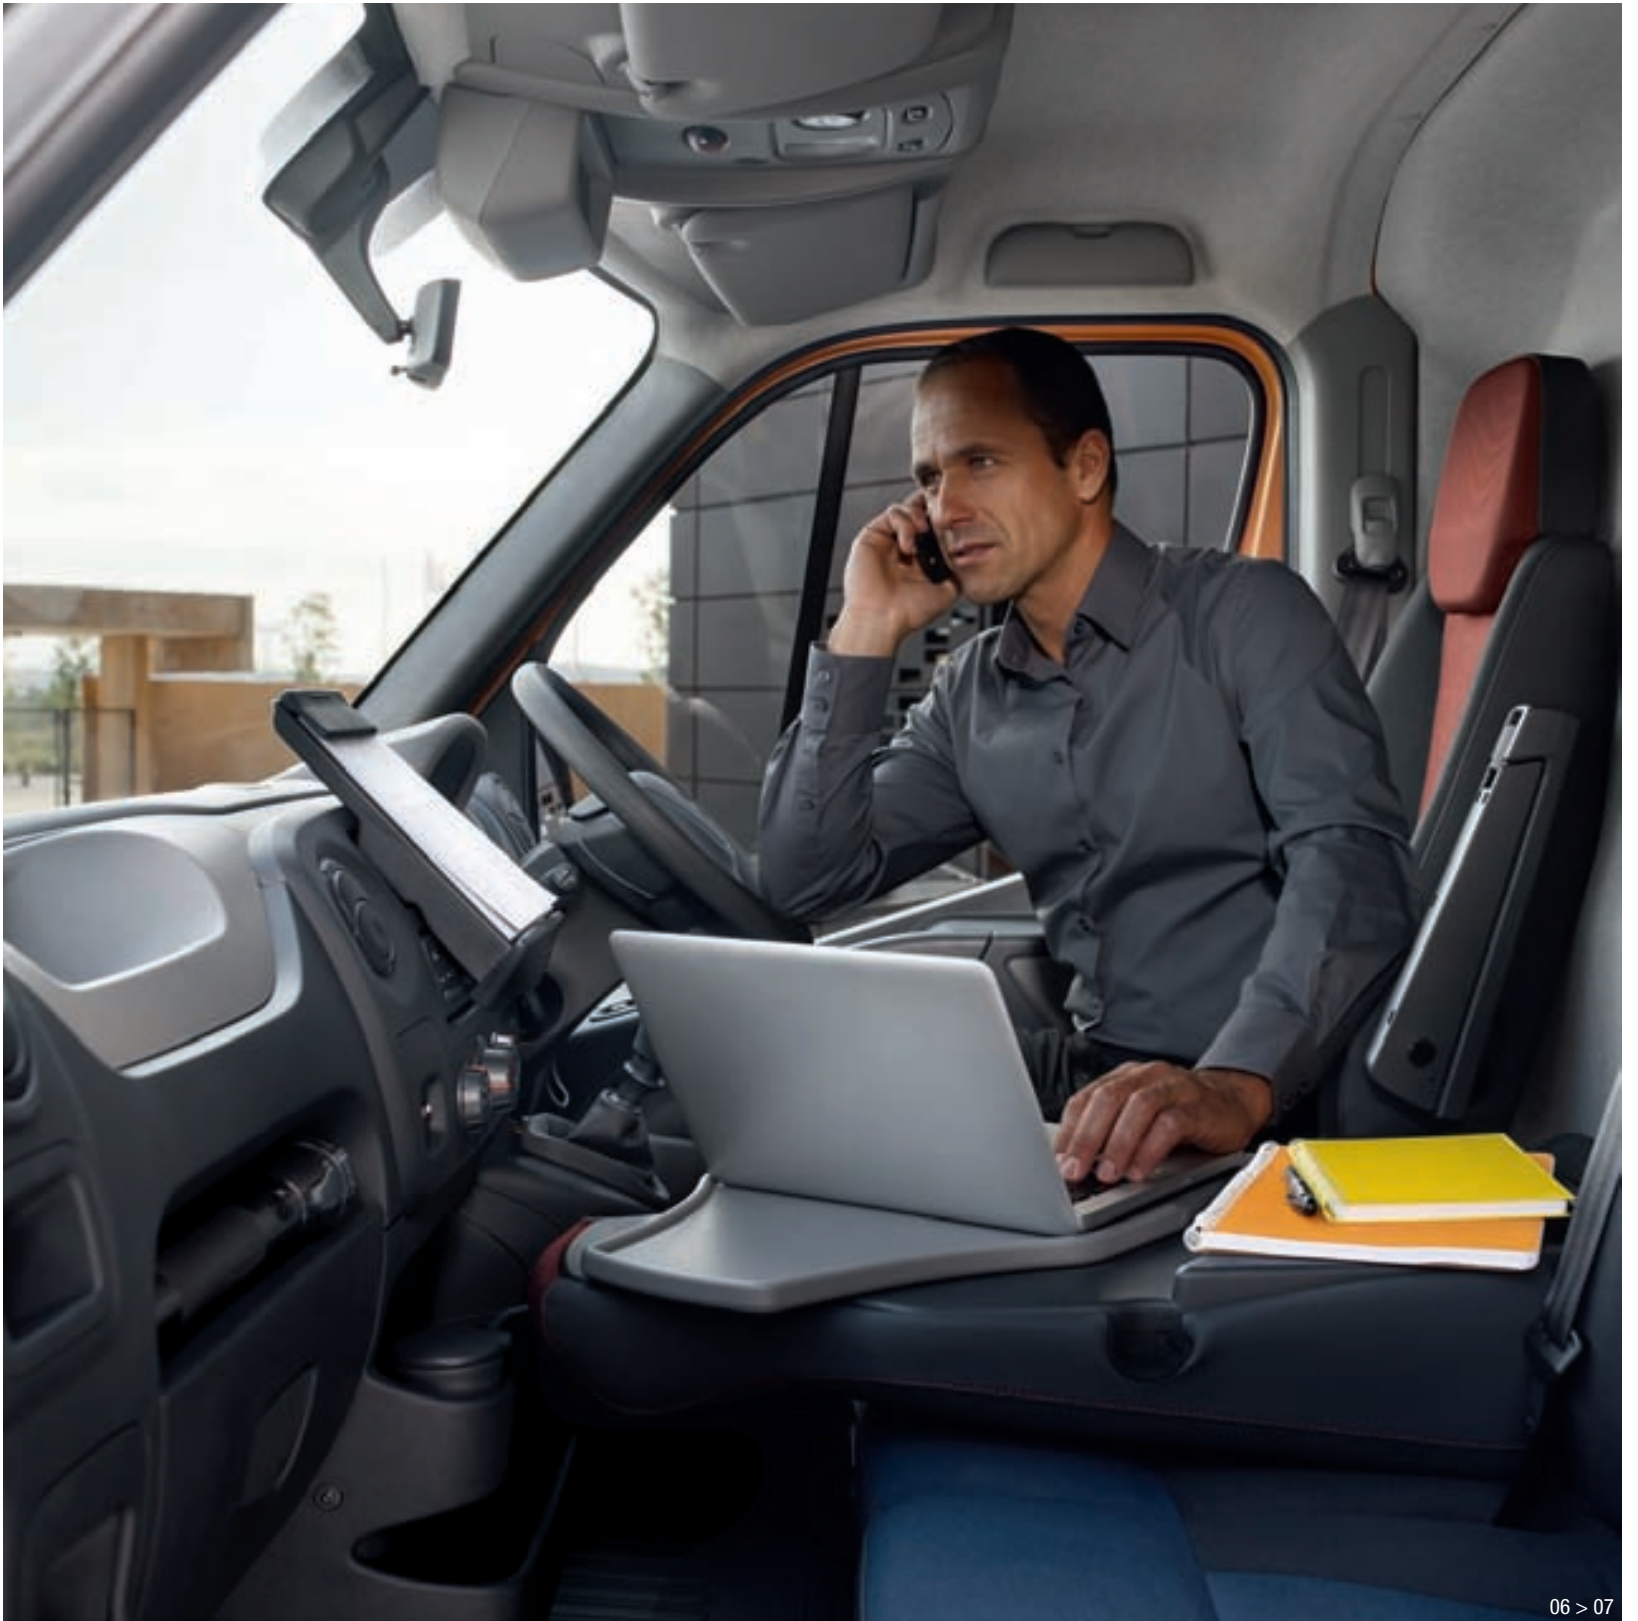

# A FULLY-FLEDGED WORKSPACE IN THE CAB.

Spacious, welcoming and comfortable, New Master's cab provides an optimal visibility, ergonomic controls, adjustable seat and steering wheel, air conditioning\*, improved noise insulation, the New Master has a raft of comfort-enhancing features normally associated with passenger cars. New Master also offers a built-in Carminat TomTom® navigation system\*\*, which guides you simply and easily to your destination (1). Renault has also equipped the New Master with both a retractable document holder\*\* on the dashboard and a swiveling desk on which to put your files or computer.

\*Available as an option  
\*\*Standard on Executive

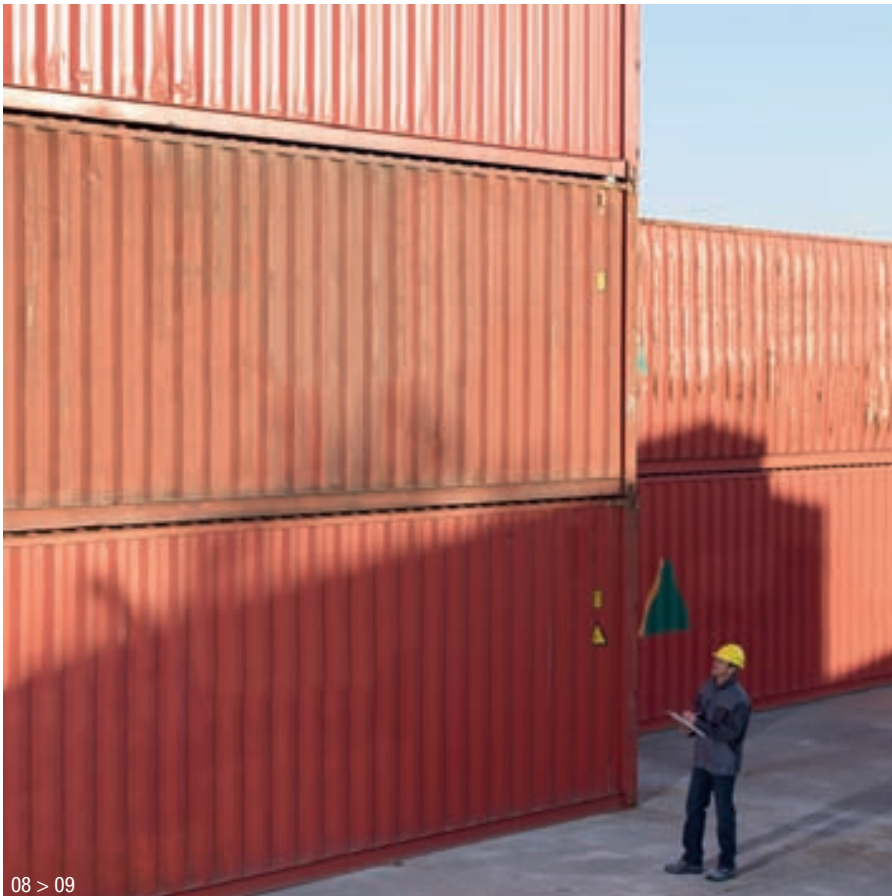

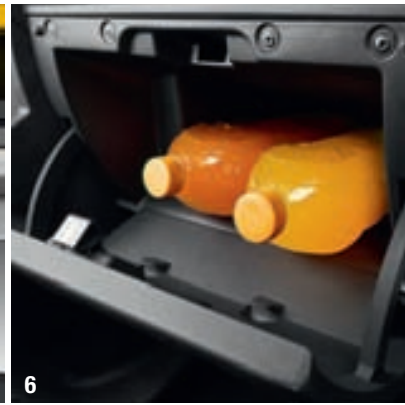

# MORE STORAGE FOR A BETTER ORGANISATION.

New Master has the market's most comprehensive range of storage solutions.

1. Swiveling desk on seatback rest\* - 2. Cup/can holders - 3. Overhead storage rack in cab - 4./7. Upper/Lower\*\* door pockets - 5. Under roof storage shelf at bulkhead - 6. Refrigerated glovebox - 8. Storage tray - 9. Storage under front passenger bench seat\*\* - 10. Retractable document holder \*\* - 11. Telephone holder and 12V power socket - 12. Cover on dashboard\*\*

\*As standard on Comfort    \*\*As standard on Executive

# FRONT AND REAR WHEEL DRIVE: FAR MORE POSSIBILITIES.

Strong and efficient, the New Master can adapt to the most demanding requirements. Need to carry heavy and bulky loads? No problem. The Rear Wheel Drive (RWD) variants ensure road handling designed to suit your professional needs. **Single wheels or twin wheels, the choice is yours.** Designed for operational use, **adaptive ESP and a rear step are fitted as standard on the panel vans.** The trailer towbar\* enables you to tow up to 3 tonnes.

\*Available as an option

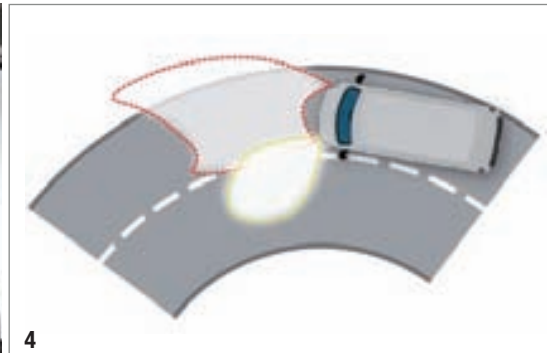

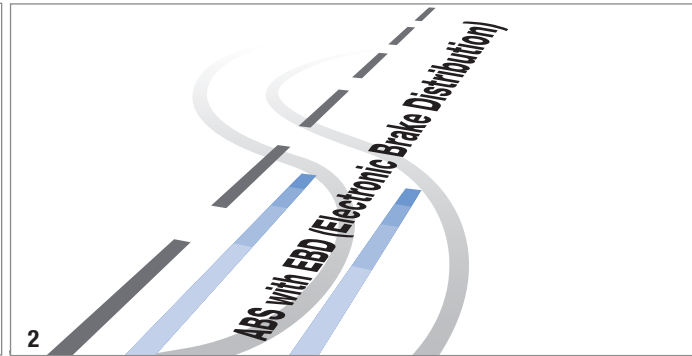

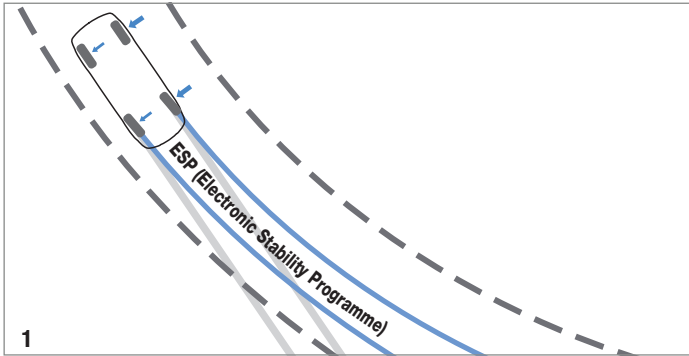

# NEW MASTER WORK IN SAFETY.

To make your working day even easier and safer, the New Master has the best technology in terms of active and passive safety, such as:

- Adaptive ESP trajectory control (Electronic Stability Programme) comes as standard on the Rear Wheel Drive and optional on Front Wheel Drive\*, along with ASR traction control (1).
- ABS brakes with EBD (Electronic Brake Distribution) and Emergency Brake Assist as standard (2).
- Also standard are the driver's front airbag (3) and a full steel bulkhead (separating you from your load in the event of sudden braking).
- Passenger front and side airbag (3)\*\*\*.
- The new innovative Fixed Cornering Lamps option is exclusive in the market to New Master (4)\*\*\*.
- The Fog Lamps improve visibility in the event of fog or rain\*\*.
- Trip Computer indicates fuel consumption and maintenance parameters\*\*.
- Cruise control / speed limiter ensures a constant or limited speed according to your needs\*\*\*.

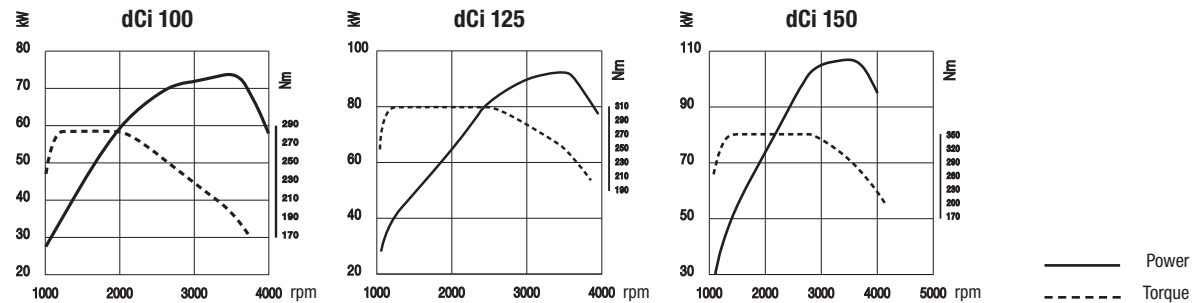

With New Master, you work in complete safety

\*Not available at launch    \*\*Standard on Executive    \*\*\*Available as an option

# NEW ENGINE: -1 L/100 KM\*

## MORE EFFICIENT, MORE ECONOMIC.

### ENGINES

The 2.3 l dCi Diesel engine on New Master, available in 100, 125 and 150 bhp versions, comes in front and rear wheel drive.

Front wheel drive engine

Rear wheel drive engine

The new engine offers you lower fuel consumption and lets you go further between refills. In addition, New Master pays particular attention to its maintenance costs, which are amongst the best on the market. Oil change frequency is taken to 40,000 km – 2 years (\*\*) and no need to plan a belt replacement, thanks to its lifetime-guaranteed timing chain.

(\*) Compared with the previous model of Master

(\*\*) On the first of the two terms reached

## FRONT WHEEL DRIVE PANEL VAN

All of the models share 5 essential requirements: robustness, agility, practicality, safety and onboard comfort. To meet your needs, the interior adaptations are infinite.

# COMFORT AND TECHNOLOGY

## 1. CARMINAT TOMTOM®

New Master offers Carminat TomTom®, the first truly affordable built-in navigation system. With calculation of the best route, real time traffic information and fixed speed camera warnings, all information is attractively displayed on the large colour screen which swivels to face the driver.

Its remote control provides intuitive, safe access to the various functions. This equipment saves time and reduces your fuel consumption.

1

## 2. KEY WITH HANDS-FREE ACCESS

Simply carry the hands-free access badge on you. The doors are opened by simply pushing the door handle without using the key.

2

3

## 3. 3-BUTTON KEY

Used to open/close the opening panels remotely, independently of the front and rear zones.

## 4. MANUAL AIR-CONDITIONING

## 5. REGULATED AIR-CONDITIONING

Adjustment of the desired temperature and electronic displays, rapid demisting and sun sensor.

## 6. CD MP3 BLUETOOTH® AUTORADIO\*

Reads mp3 files, its functionality also enables the hands-free kit to be connected so you can be contacted at any time.

## 7. PLUG&MUSIC CONNECTION

Hook up your digital, personal music player using the USB and iPod outlets and manage the system through steering wheel controls.

\* It is recommended not to drive when calling (please check your phone availability).

4

5

6

7

# ADDITIONAL ADAPTATIONS

## 1. 270° REAR STEEL DOORS

This 270° opening enables easy coupling on a logistics platform. Once open, the door is held in place by a magnet.

## 2. ANTI-SLIP PLYWOOD FLOOR

Protects the loading area floor of your New Master when transporting merchandise.

## 3. ENTIRE WOOD PROTECTION

Protect the entire loading area of your New Master when transporting merchandise.

## 4. ALUMINIUM ROOF RACK + WALK-WAY

Specially designed for New Master, the aluminium roof rack is fitted with a roller at the rear to facilitate loading. Also available with a steel ladder and a walk-way.

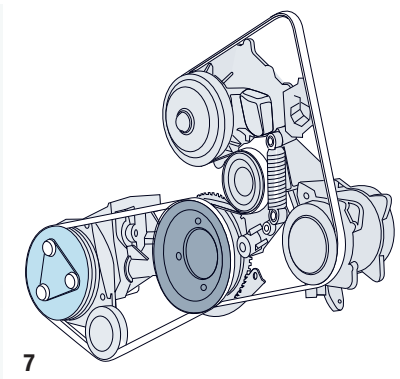

## 5. DIFF" LOCK

Improves mobility on slippery or loose surfaces, for example for use on worksites.

## 6/7. ENGINE POWER TAKE-OFF & GEARBOX POWER TAKE-OFF

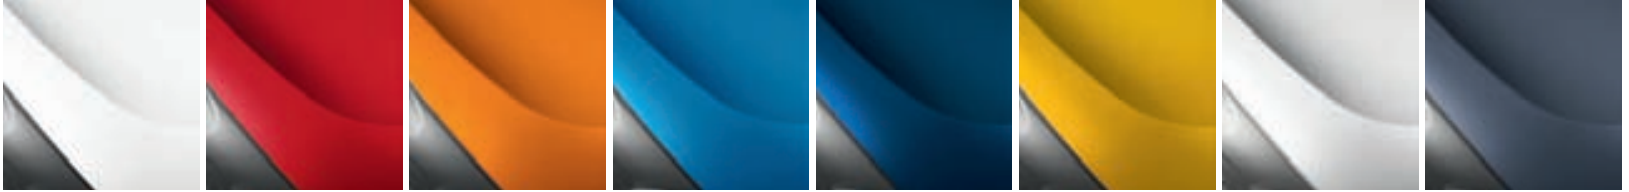

Used to recover engine power (directly or via the gearbox) to operate equipments such as refrigerating units, cranes and hydraulic arms.

## 8. 12V OUTLET IN LOADSPACE

New - enables electric tools to be used in the loading area.

# WHO BETTER THAN RENAULT TO SERVICE YOUR RENAULT?

## I – THE RENAULT CUSTOMER CARE PACKAGE: YET ANOTHER OF THE PLEASURES OF RENAULT OWNERSHIP

Today's Renault cars testify to the enormous technological advances made over the past decade and demonstrate the benefits which those advances have brought to the motorist. The modern Renault performs more strongly, uses less fuel and is safer than ever before. Equally importantly, it is unprecedentedly durable and reliable - a fact which is reflected in the remarkable warranty package enjoyed by every Renault owner. All Renault vehicles come with 3 years warranty and AA Roadside Assist. In the case of your New Master, this warranty package is extended up to 5 years and unlimited mileage\*. Paintwork is also guaranteed for 3 years while the anticorrosion warranty runs for 6 years.

## II – A COMPREHENSIVE RANGE OF PRACTICAL, HELPFUL SERVICES

### **Renault Roadside Assistance**

The support you get in the 5 years of owning your new Renault is enhanced by free Renault Assistance cover. The Renault Assistance team is there for the sole purpose of responding to emergency calls from Renault customers, so you can be assured of top class service. Your handbook will give a complete rundown of all the help and services available to you, but, briefly, they include:

Roadside Assistance: if you breakdown or your car is immobilised, at any time of day or night, one free phone call will bring help.

Recovery: if your car can't be fixed by the side of the road, your vehicle will be recovered to the nearest Renault dealer and you will be offered an alternative form of mobility, if need be.

At home: you don't have to be out and about to get help. The Assistance provider will attend a breakdown at your home or office as well.

## III – SERVICES AVAILABLE FROM YOUR RENAULT DEALERSHIP

### **Superior cars – superior service**

Renault is represented by a nationwide network of dealers, so you can be sure that you're never far from a group of experts who can help you get the very most from ownership of your new car. Renault workshops are equipped with the very latest in diagnostic and other equipment to keep your car operating at peak efficiency. Your dealer's parts department houses a huge range of electrical and mechanical parts, so repair or servicing operations are hardly ever delayed by the lack of vital parts. Your local dealer is the first point of contact for anything and everything concerned with your new Renault - including, of course, a test drive!

The best accessory shop in town is at your Renault dealer. If you've looked at the specification lists in this brochure, you won't need to be told that Renault cars are amazingly well equipped. But Renault owners are individuals with their own individual tastes, needs and interests.

Which is why the Renault Boutique at Renault dealerships offers an enormous range of additional equipment and accessories. There are alloy wheels; body kits; carpet mats; sun blinds; tow bars; mudflaps; roof racks; plastic / wooden floors; alarm systems; integrated mobile phone system and much more besides. Every single item is made to the same quality standards as the components used in Renault cars themselves and is a perfect match for Renault's distinctive visual style.

## IV – CUSTOMER RELATIONS SERVICE

Renault knows the value of communicating with its customers and we have established effective ways of keeping in touch with you. Whatever your query you can contact Renault Ireland Customer Services Department on LoCall **1890 771 771**
