

THE FUTURE OF THE SPORT TOURER STARTS HERE

In order to deliver both responsive and secure handling, the Grand Mégane has a perfectly balanced chassis and precise steering. Discover the EDC (Efficient-Dual Clutch) automatic gearbox that offers top level performance with comfort and driving pleasure and comes with very low consumption and emission level. Together with a range of high-performance economical and ecological diesel engines (all available dCi engines with Band A, lowest road tax: 104€ per year), the Grand Mégane is proof that driving an estate car can be a real pleasure. The Grand Mégane's boot offers a generous load area from 486 litres with the five-seat configuration, up to 1600 litres by simply folding down the rear seats. Spacious and ingenious, the Grand Mégane's boot comes with a clever storage compartment system that makes it easier to organise the loading space and to make your life and journey easier. To get you where you want to go with minimum fuss, the Grand Mégane offers an easy-to-use satellite navigation solution (an option), developed exclusively with TomTom®, world-renowned experts in the field.
